

The Low Down Environmental Blues

Written April 13, 2010 at Eugene Coste School by Cathy Thomsen's and Lila Dick's Grade 4 classes,
Molly Hamilton and Anthony Burbidge

Verse 1

**If we want to save the planet
There is so much we can do
We can reuse plastic shopping bags
We can compost food scraps too**

Verse 2

**If we want to save the planet
We can use cloth bags today
We can all drive hybrid automobiles
Turn the lights off when we are away!**

Chorus 1

**Well if we do these things
You know it's true
We can save our planet from
The low down environmental blues**

Verse 3

If we want to save the planet
Let's keep our oceans clean
Don't dump oil and garbage in
Think environmentally clean

Verse 4

If we want to save the planet
We can all plant beautiful trees
Cause the trees give the world it's oxygen
They make homes for the birds and bees

Repeat Chorus

Verse 5

If we want to save the planet
There is so much we can do
We can recycle paper every day
Cause recycling's our golden rule

If we want to save the planet
The change will start with us
We can eat organic vegetables
Ride our bicycles or take the bus

Repeat Chorus

Repeat Chorus
